

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

JAPANESE PHRASE BOOK

This Phrase Book Supersedes TM 30-275, April 15, 1943

JAPANESE is spoken by over 70 million people in Japan and is understood by many people in Korea and Formosa.

This Phrase Book contains the Japanese words and expressions you are most likely to need. *In the column headed Pronunciation all the words are written in a spelling which you read like English.* Each letter or combination of letters is used for the sound it normally represents in English and it *always* stands for the same sound. Thus "oo" is always to be read about as in *too, boot, tooth, roost*, never as in *blood* or *door*. The Hepburn spelling is given in the third column for those who have studied some Japanese before. (See page vi.)

Syllables that are accented, that is, pronounced louder than others, are written in capitals. However, you will notice that the accent in Japanese is not as strong as in English, and that some of the syllables that come ahead of the accented syllable may sound almost as loud as the accented syllable. *Curved lines () are used to show sounds that are pronounced together without any break; for example, "g_yoon-yoo" meaning "milk."*

How to Use the Phrase Book

The Table of Contents lists the situations covered. Try to become familiar with the contents of the Phrase Book so that you know where to find a given section when you need it. Under each section you will find a number of questions, each one so phrased that the Japanese speaker will point out the direction give you a number, etc. If you don't get an answer you can understand, use one of the following expressions:

<u>English</u>	<u>Pronunciation</u>	<u>Hepburn Spelling</u>
Please show me	MEE-set-ay koo-da- SA-ee	Misete kudasai
Please write it	KA-ee-tay koo-da- SA-ee	Kaite kudasai
Please write the number	SOO-jee o KA-ee-tay koo-da-SA-ee	Sūji o kaite kudasai

The Japanese often don't answer a question with Yes or No. For example, if you ask "Do you understand?" they will generally say either "I understand" or "I don't understand." If you don't understand such an answer, you can ask the Japanese speaker to say Yes or No, by using the following expression:

Please answer Yes or No	HA-ee ka EE-YAY ka ko-TA-et-ay koo- da-SA-ee	Hai ka Ie ka kotaete kudasai
----------------------------	--	---------------------------------

You may find it helpful to point to the question in Japanese writing and ask the Japanese to point to the answer:

Please point to the an- swer in this book	HOAN nee AR-oo ko- ta-ay o SA-shtay koo-da-SA-ee	Hon ni aru kotae o sashite kudasai
--	--	---------------------------------------

You will notice that requests like those mentioned above are given in this Phrase Book in a polite form. However a direct command form is also included in many cases, so that it can be used when necessary. For example, in speaking to prisoners other than officers, the Japanese custom is to use expressions like the following:

Answer Yes or No!	HA-ee ka EE-YAY ka	Hai ka ie ka kotaero!
(command)	ko-TA-ay-ro!	
Show me! (command)	mee-SAY-ro!	Misero!
Write it! (command)	KA-kay!	Kake!

It is a good idea to memorize the numbers (at least up to ten), and other expressions you will constantly need.

When you need only one word or phrase, you can use the Alphabetical Word List at the back of the book. The page numbers there show you where to find expressions containing the word or phrase.

To help with the pronunciation of Japanese, a set of records is issued with the *Japanese Language Guide (Introductory Series)*, TM 30-341.

Fill-in Sentences

Many of the expressions are given in the form of fill-in sentences, each containing a blank which you fill in with any of the words in the list that follows. For example, if you want to know where the station is, you can look either in the section headed Location or in the one headed Roads and Transportation. You will find a fill-in sentence for "Where is the ——?" and, in the

list following the sentence, the word for "railroad station." You then combine the words as follows:

Where is the ——?	—— wa DOAK-o dess- ka?	—— wa doko desu ka?
railroad station	tay-ee-sha-ba	teishaba
Where is the railroad station?	tay-ee-sha-ba wa DOAK-o dess-ka?	Teishaba wa doko desu ka?

Sometimes the blank has to be filled in with the name of a city or a person. For example:

How far is ——?	—— ma-day doan-o- koo-RA-ee dess-ka?	—— made donokurai desu ka?
—— wants to see you	—— ga ah-ee-ta-ee SO-dess	—— ga aitai sō desu

NUMBERS

NOTE: In Japanese there are several sets of numbers used for different kinds of things. The numbers given here are the ones used on the telephone. The word for "number" ("BAHN") is added at the end. To express the number 4521, you say "Four thousand five hundred twenty-one number," namely: "YOAN sen, go H YA-koo, NEE-joo ee-chee bahn." (For other numbers see pages 118-124.)

12. ALPHABETICAL WORD LIST

In Japanese the form of a word sometimes changes according to the way it is used. For example, the simple form of the word for "near" — "CHKA-ee" — is used in a sentence like "Is it near?" but in a sentence like "Are they near?" the form is "CHKA-koo." In the following list the simple form of the word is given; thus, for "near" you will find "CHKA-ee." The page numbers show you where to find expressions containing the words listed.

A

<i>English</i>	<i>Pronunciation</i>	<i>Hepburn Spelling</i>
accelerator, 138	ka-SO-koo-kee	kasokuki
address, 48, 68	JOO-sho	jūsho
